Top Skills

Linux System Administration
Linux Desktop
Python Framework

Certifications

Scientific Computing with Python
College Algebra with Python
Coursera
Legacy JavaScript Algorithms and Data Structures
Foundational C# with Microsoft

Md. Jamil Uddin

Software Engineer. 2nd
Khulna, Bangladesh

Summary

"Front-End Developer with 2 years of hands-on experience in building and optimizing user-focused web applications using modern frameworks and technologies such as ReactJS and NodeJS. Experienced in front-end development with 2 years of delivering responsive, user-friendly interfaces and collaborating with cross-functional teams to create high-quality web solutions."

Experience

Self-employed
Software Engineer
March 2024 - Present (1 year 5 months)
KUET , Bangladesh

Self-Employed
Freelance Web Developer
January 2023 - Present (2 years 7 months)
Designed and developed responsive, user-friendly websites for clients using React, Tailwind CSS, and JavaScript, improving their online presence and user engagement by 25%. Integrated REST APIs to fetch and display dynamic content, reducing page load time by 30% and enhancing user experience. Built full-stack applications using the MERN stack (MongoDB, Express, React, Node.js), implementing features like user authentication, real-time updates, and database management. Developed Python scripts to automate repetitive tasks, improving workflow efficiency by 40%. Collaborated closely with clients to gather requirements, provide technical solutions, and deliver projects within deadlines using Agile methodologies. Utilized Git for version control and CI/CD pipelines for seamless deployment, ensuring efficient workflow and timely delivery.

ABC Electronics
Intern
July 2023 - December 2024 (1 year 6 months)

Designed and implemented a Python-based automation tool for data analysis, reducing manual processing time by 40% and improving accuracy. Developed a communication protocol for IoT devices using C++, ensuring seamless data transmission and improving system reliability by 20%. Created C# applications for data visualization and reporting, enabling better decision-making for the team. Gained hands-on experience in debugging and optimizing code for embedded systems using C, improving system performance by 20%. Documented technical processes and created user manuals, enabling smooth knowledge transfer to the team.

Education

Khulna University of Engineering and Technology

B.Sc., Electronics and Communication Engineering · (January 2023 - December 2027)
